SUMMARY

Dynamic and results-oriented Full Stack Developer with 4+ years of experience in designing, building, and deploying scalable web applications and solutions. Proficient in both front-end and back-end technologies including HTML, CSS, JavaScript, React, Vue.js, Node.js, and MongoDB. Demonstrated ability to lead cross-functional teams and steer complex projects while adhering to tight deadlines and maintaining exceptional standards of quality. Skilled in Agile methodologies, DevOps practices, and CI/CD processes to streamline development cycles.

TECHNICAL SKILLS

Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, SASS, JavaScript (ES6), Material UI, React.js, Next.js, Redux, Vue.js (Vue2), Vuetify, Vuex, Express.js, Node.js, GraphQL, Azure, MongoDB, Google Maps, Mapbox, AI Tools (Claude, Cursor, GitHub Copilot).

Tools: Git, Docker, Postman, Vercel, MongoDB Compass, Studio 3T, Mongoose, Vite, Webpack, ESLint, Prettier, Yarn, npm, Asana, Notion.

Soft Skills: Mentoring, Leadership, Teamwork and Collaboration, Code Reviewing, Problem-Solving, Communication, Time Management.

PROFESSIONAL EXPERIENCE

Skillrev — Full Stack Developer | Feb 2026 - Present

Pioneered the migration and modernized legacy web applications using React.js and Next.js, boosting core web vitals by 35% and enhancing page load speed across 10+ core modules.

Architected and integrated secure RESTful APIs, GraphQL endpoints, and third-party services using Node.js and Express.js, accelerating server data retrieval by 30% and reducing API response latency by 120ms.

Mentored a team of 5 junior developers and led rigorous code reviews, reducing pull request review cycles by 25% while enforcing ESLint and Prettier standards.

Maintained and optimized automated CI/CD pipelines leveraging Git Flow and Azure DevOps, streamlining workflows to decrease release deployment turnaround times by 40%.

Utilized AI developer tools, including Claude, Cursor, and GitHub Copilot, on a daily basis to accelerate software workflows and automate repetitive tasks, boosting overall development velocity by 30%.

Koyal Technologies LLP — Full Stack Developer | Dec 2023 - Feb 2026

Led the development of a comprehensive software solution designed to streamline land tax payments for US citizens, securely processing over $5M+ in annual transaction volume with 99.9% uptime.

Built an intuitive, responsive front-end interface utilizing Vue.js and Vuetify, improving user engagement and retention metrics by 25% while lowering bounce rate by 15%.

Engineered robust back-end services with Node.js, Express.js, and GraphQL to cut system downtime by 50% and improve service throughput by 45%.

Aggregate Intelligence — UI/UX Developer | Jan 2022 - Dec 2023

Created and sustained data-driven logic for 4 core analytical applications including StorTrack Explorer, LSS, Optimize, and RV Park, servicing 5k+ active monthly users.

Integrated Mapbox, advanced SEO strategies, and Apex Charts to deliver high-performance data visualizations, driving a 20% increase in business intelligence insights usage and consolidating isolated products into a unified platform.

Cogen SoftTech — Software Developer | Aug 2021 - Dec 2021

Constructed and maintained critical applications using proprietary frameworks, maintaining 99.8% system availability and serving 1,000+ daily active users.

Analyzed and optimized complex SQL queries, improving database retrieval speeds by 35% and reducing overall server execution response times.

EDUCATION AND TRAINING

MERN Stack Training

JSpiders Bengaluru

Bachelor of Computer Applications (BCA)

Vivekananda Institute of Management (2016 - 2019)

Pre-University College

Vivekananda College of Arts and Commerce, Bangalore (2013 - 2015)
